Better security.
Better care.

October is National Cyber Security Awareness Month

Cyber security awareness month is an annual global initiative to raise awareness of:

- Cyber security threats
- Good cyber security practices for citizens and organisations
- Resources to protect people online

In 2013, The European Union Agency for Network and Information Security (ENISA) started the European Cyber Security Month (ECSM) & you can learn more here: [cybersecuritymonth.eu](https://www.cybersecuritymonth.eu)

For the latest cyber security news & articles we would recommend the National Cyber Security Centre's website: [ncsc.gov.uk](https://www.ncsc.gov.uk) & completing the DSPT will provide you with a greater awareness of cyber crime and how to protect your organisation.

On social media the message is being spread with a clear and simple hashtag: **#ThinkB4UClick**

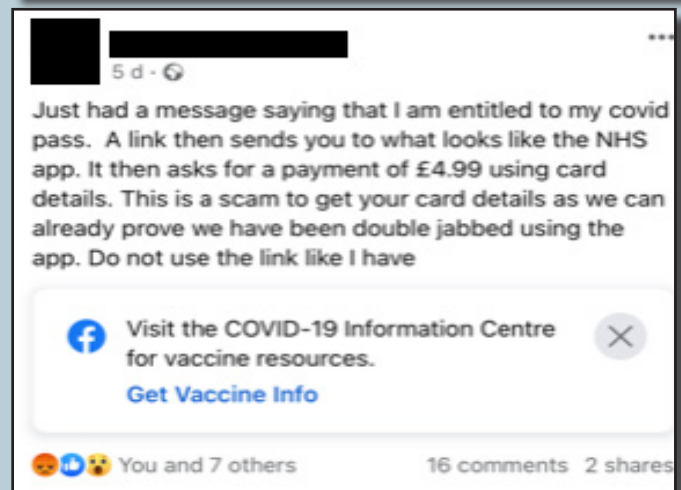

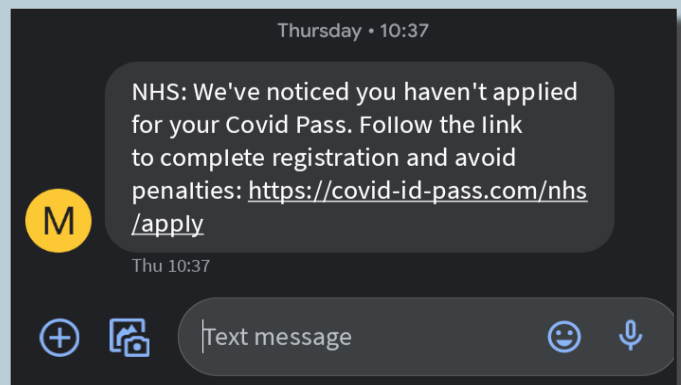

BEWARE: NHS Covid Pass SCAM

Criminals are using the NHS COVID Pass as a way to target the public by convincing them to hand over money, financial details and personal information.

They are sending imitation text messages, emails and making phone calls pretending to be from the NHS.

If you are suspicious about an email, forward it to report@phishing.gov.uk. If you are suspicious about a text message, forward it to the number 7726, which is free-of-charge. You may also call the fraud and corruption reporting line on 0800 028 4060.

Action Fraud has developed a poster in partnership with the NHS you can print off and put up to spread awareness, you can access it by scanning the QR Code to the right with the camera on your mobile phone.

How to Protect Your Organisation Against Cybercrime

(LSCP) CIC continues to support North West care providers to register and complete their Data Security Protection Toolkit (DSPT) as part of the national Better Security, Better Care programme. The Toolkit will help secure your organisation against cyber attacks.
