

LANCASHIRE & SOUTH CUMBRIA JOINT TRAINING PARTNERSHIP

Identifying early signs of worsening health in a person with a learning disability – specific training for carers

Lancashire and South Cumbria Integrated Care System is offering national training in RESTORE2™ mini. Attending the workshop will help you to be able to identify when the person you care for is becoming more unwell (deteriorating health) and how to tell a health professional about that. Increasing awareness about the early identification of deteriorating health has been identified as a priority in Lancashire and South Cumbria.

RESTORE2™ mini is an award-winning tool specifically designed for carers to help you to identify soft signs that someone you care for may be unwell and what you should do next. This version of Restore2mini™ has been specially adapted for people caring for those with a learning disability.

We are inviting providers and carers to take part in this important one off 90-minute training session which will help you to identify soft signs of deterioration and then seek the right help at the right time. **The workshop is free and only for carers of someone who is over the age of 16.**

What you'll learn

- How to identify soft signs of deterioration
- How to use a simple communication tool (SBARD) to communicate effectively with health care professionals so you can get the help you need at the right time

Dates

23rd February 2022 10am – 11:30am

25th February 2022 10am – 11:30am

2nd March 2022 10am – 11:30am

4th March 2022 13:00 – 14:30

9th March 2022 13:00 -14:30

21st March 2022 13:00 – 14:30

6th April 2022 10:00 – 11:30

11th April 13:00 – 14:30

13th April 2022 10:00 – 11:30

25th April 2022 13:00-14:30
